FOR IMMEDIATE RELEASE:

## **REMOS Selects New Dealer in Lithuania**

Pasewalk, Germany – In keeping with their plan to establish a global sales and service network, REMOS Aircraft has bestowed a dealership on Amber Avia, UAB at Aerodrome EYVP, near Vilnius, Lithuania. Zygimantas Valiunas, CEO of the company, said: “We look forward to contributing to an expansion of General Aviation in the Baltic States through REMOS. It’s an ideal trainer and introduction aircraft for entry level pilots and those seeking the IFR and Commercial ratings.”

Valiunas expects to develop a flight training operation centered on the ultralight version of the GX series as a trainer. The Baltic States of Estonia, Latvia and Lithuania have seen a recent surge of interest in flying and primary training that can lead to positions with commercial airlines. “For those interested in an airline career or just recreational flying, the REMOS is an excellent starting point. We compared and flight tested a number of other two seaters in this class, but felt REMOS offered the best combination of good handling, efficiency, low maintenance and mission profile capabilities.”

Designed by German engineers, REMOS AG recently upgraded and refined the powerplant and avionics options in their new model, the GXiS. REMOS has developed an exclusive computerized system for starting the Rotax 912 iS Sport fuel injected engine. Starting is now a simple process of turning the key and pressing a "Start" button, reducing a once-complicated process to two steps. They have also adopted the new 10" Dynon touch sensitive screens along with the Garmin GTN 750, an all in one WAAS GPS/NAV/COM navigation system and control panel for radio, audio panel, transponder and autopilot.

REMOS has established dealers in a dozen countries around the globe and will continue to expand its list of outlets. For more information on REMOS, visit [REMOS.com](http://REMOS.com). To contact Amber Avia, UAB in Lithuania, visit [remos.lt](http://remos.lt), email [info@remos.lt](mailto:info@remos.lt) or call +37069978878.
